SUMMARY

I am a web developer with vast knowledge of many different front-end and back-end languages, responsive frameworks, databases, and best code practices. My objective is to gain experience in the field of computer science so that I can contribute to the technology industry with all that I know and can do. I believe that my understanding of problem-solving and complex algorithms are also skills that have and will continue to contribute to my overall success as a developer.

PROJECTS

RTP Social Genie

ReviewThatPlace • <https://rtpsolutions.com/genie> • February 2024 - Present

• Social media management software is a tool or suite of tools designed to enhance a company's or individual's engagement on various social media networks. It streamlines content creation, scheduling, and posting across

platforms like Facebook, Twitter, Instagram, YouTube, Pinterest, LinkedIn, and more, enabling effective communication across multiple channels.

Online Learning dashboard

ReviewThatPlace · n/a · May 2024 - Present

- Online chat is any kind of communication over the Internet that offers a real-time transmission of text messages from sender to receive, and user also will see the courses which are generated by teachers, other staff.
- Designed and implemented an online learning dashboard that increased user engagement by 25% through the integration of interactive features and real-time progress tracking using React.js and Node.js.

Terrascope

Devsinc · <https://terrascope.io/>

- Terrascope uses computer vision to extract more exclusive property data. Terrascope patented AI search algorithm learns your preferences as you provide feedback on listings, like a real estate expert! The more you use Terrascope more personalized your search results will become.

Harness

Devsinc · <https://bearx.co/>

- Connect with students, alumni, faculty, and staff to advance your career, find mentors, join startups, and attend exclusive events. Build out your startup or idea with brilliant people, find a job with impact, and grow professionally.

Travelin

FYP · n/a · May 2020 - September 2021

- Travelin is a social media web application for travel individuals and travel agencies as well. You can find your travel packages here easily. Travel agencies register themselves on this website. Users can also find their travel partner according to their interests.

Islamic finance bureau

- You can find different Islamic home finance products, you pay rent not interest when you purchase or refinance a property. Unlike conventional mortgages and refinances, Islamic Finance Bureau Sharia-compliant Home Purchase Plans (HPP) and Buy to Let Purchase Plans (BTLPP) do not involve interest charges and are based on joint ownership.

Limoucloud

- LimouCloud covers your business from reservations to accounting. Dispatch drivers to calls and receive automatic status updates. Create and manage reservations and view them anywhere using our cloud-based software. Manage Sales, Purchases, Banking, and Payroll all in one place. Run multiple reports and see your company's growth.

ES NODE

Beyond Technologies · n/a · May 2023 - February 2024

- File Management System for warehouses, and (Apple) servers.
